Pietertje van Splunter graduated in 1990 at the Royal Academy of Arts in The Hague.

She has a background as painter but leaves no medium unexploited. In colorful paintings, videos and spatial installations she consistently shows a perception of the world around her which is both poetic and critical. No matter whether she busies herself with the art world, urban space or our personal surroundings.

Co-founder, organizer and occasional curator of exhibitions at the Quartair Contemporary Art Initiatives

Quartair (1992) is a place for production, presentation and artistic debate in The Hague - www.quartair.nl
